

PIERCE PROPOSED AMENDMENT NO. 1

0000150214

TIME/DATE PREPARED: 2:00PM / February 5, 201

COMPANY: Arizona Public Service Company, et al.

AGENDA ITEM NO. 12

DOCKET NO(S). E-01345A-10-0394, E01345A-12-0290, E-01933A-12-0296, E-04204A-12-0297

OPEN MEETING DATE: February 6, 2014

ORIGINAL

The purpose of this amendment is to adopt the clarifying language from staff's proposed amendment that was submitted on January 24, 2014 along with APS recommended edits.

Page 53, Lines 1 & 2, **DELETE**: "The waiver... public interest." **REPLACE** with:

"Such full permanent waiver, if granted, will become effective for the budget year under consideration (i.e., a waiver request in a utility's 2015 REST Implementation Plan filing will be in effect for the year 2015). In order to assist the Commission in determining whether the waiver request is in the public interest, the waiver request shall include the capacity of distribution generation installed in each of the previous five (5) calendar years and installed to date in the current calendar year, broken out by technology type, customer class, those receiving upfront incentives, those receiving performance based incentives and those receiving no incentives. Utilities may also include proposals for direct cash incentives should the Commission decline to grant a permanent waiver."

Page 53, Line 3, **INSERT**: the following New Ordering Paragraphs:

"IT IS FURTHER ORDERED that for information purposes only, the waiver request shall include the amount of actual distribution energy (kWh) produced in the previous calendar year and to date in the current calendar year, broken out by technology type, customer class, those receiving upfront incentives, those receiving performance based incentives and those receiving no incentives.

"IT IS FURTHER ORDERED that if a waiver is granted, such waiver shall also permanently reduce the annual renewable energy requirement for future years and permanently reduce the distributed energy requirement for future years.

"IT IS FURTHER ORDERED that if a waiver is granted, such waiver shall not require the utility to make up the difference with utility-scale renewables in future years."
